

Account Creation (Sign Up) and Log In Logic

I. Sign Up and Login Master Logic Flow Chart

Choose Role-specific Sign Up Method

II. New User Account Creation (Sign-Up) Flow Summary

Detailed Logic: [Psychometric Assessment and Guidance Platform - Logic 2026-27](#)

If a new user enters a username/email ID and password on the login page but no profile exists, the platform displays an error and prompts the user to sign up.

1. Select Profile Type

Users choose one of four profile types:

a. Career Explorer

b. Career Counsellor

c. Administrator

d. Data Analyst

Each profile type requires completion of a basic details form before account creation.

2. Profile Information Collection

A. Career Explorer

Required fields:

- a. First Name
- b. Gender
- c. Date of Birth
- d. Country
- e. State
- f. Stage in Education > Reason for Drop Out (conditional) OR Link Profile + Grade > NGO/Institution Name (Conditional)
- g. How did you find out about this platform?
- h. Preferred Communication Channel

Optional fields:

- a. Middle Name
- b. Last Name
- c. Career Counsellor ID

Hidden and Optional fields (On Sign Up Page, but Visible and Locked/Un-editable in User Profile):

- a. Student UID (Filled by linked Career Counsellor and auto-populated)
- b. School Name (Auto-filled based on UID > School mapping)

(We may add in a few more fields here later as per need - like Caste, Religion, etc. if required - also same way auto-populated based on UID mapping. **So please keep user profile fields configurable**)

B. Career Counsellor

Required fields:

- a. First Name
- b. Gender
- c. Date of Birth
- d. Country

- e. State
- f. Counsellor Type > NGO/Institution Name dropdown (conditional) AND/OR NGO/Institution Name manual input (Conditional) OR Independent
- g. How did you find out about this platform?
- h. Email ID

Optional fields:

- a. Middle Name
- b. Last Name

Hidden and Optional fields (On Sign Up Page, but Visible and Locked in User Profile):

- a. School Name (Auto-filled based on Email ID > School mapping)

(We may add in a few more fields here later as per need if required - also same way auto-populated based on Email ID mapping. **So please keep user profile fields configurable**)

C. Administrator

Required fields:

- a. First Name
- b. Gender
- c. Date of Birth
- d. Country
- e. State
- f. Administrator Type > State Government + Department + Designation (Conditional) OR NGO/Institution Name dropdown (Conditional) AND/OR NGO/Institution Name manual input + Designation (Conditional)
- g. How did you find out about this platform?
- h. Email ID

Optional fields:

- a. Middle Name
- b. Last Name

(We may add in a few more fields just in User Profile later as per need if required - not on sign up page. **So please keep user profile fields configurable**)

D. Data Analyst

Required fields:

- a. First Name
- b. Gender
- c. Date of Birth
- d. Country
- e. State
- f. Data Analyst Type > State Government + Department + Designation (Conditional) OR NGO/Institution Name dropdown (Conditional) AND/OR NGO/Institution Name manual input + Designation (Conditional)
- g. How did you find out about this platform?
- h. Email ID

Optional fields:

- a. Middle Name
- b. Last Name

(We may add in a few more fields just in User Profile later as per need if required - not on sign up page. **So please keep user profile fields configurable**)

3. Data Consent

- 1. If based on DOB entered, age is below 18, then Consent Form 1 (Guardian consent) opens
- 2. If based on DOB entered, age is 18 or above, then Consent Form 2 (Self consent) opens
- 3. If 'I Consent' is clicked:
 - a. Consent is saved against this profile
 - b. Communication Channel (Career Explorer) or to Email ID (Career Counsellor/Administrator/Data Analyst) verification page opens
 - c. OTP is sent to selected Communication Channel (Career Explorer) or to Email ID (Career Counsellor/Administrator/Data Analyst)

4. Communication Channel or Email ID Verification Method

Career Explorer

Career Explorer can verify provided channels using:

A. Email ID + OTP

- 1. Select Email ID in Preferred Communication Channel Dropdown
- 2. Enter Email ID
- 3. Click **Verify and Send OTP** button
- 4. Receive a 4-digit OTP on entered Email ID

5. Enter OTP and submit within 150 seconds (Resend OTP active after 30 seconds)
6. If OTP is correct:
 - a. Email is verified
 - b. Username and Password Creation Page opens

B. Phone Number + OTP

1. Select Mobile Number in Preferred Communication Channel Dropdown
2. Enter Mobile Number
3. Click **Verify and Send OTP** button
4. Receive a 4-digit OTP as a message on entered Mobile Number
5. Enter OTP and submit within 150 seconds (Resend OTP active after 30 seconds)
6. If OTP is correct:
 - a. Mobile number is verified
 - b. Username and Password Creation Page opens

C. Email ID + Phone Number + OTP

1. Select Email ID and Mobile Number in Preferred Communication Channel Dropdown
2. Enter Email ID and Mobile Number
3. Click **Verify and Send OTP** button
4. Receive 2 4-digit OTPs - one in inbox of Email ID, and another as a message on entered Mobile Number
5. Enter both OTPs and submit within 150 seconds (Resend OTP active after 30 seconds)
6. If OTPs are correct:
 - a. Email ID and Mobile number are both verified
 - b. Username and Password Creation Page opens

Career Counsellors

Career Counsellor has only one option, verified using:

A. Email ID + OTP

1. Enter Email ID in provided field
2. Click **Verify and Send OTP** button
3. Receive a 4-digit OTP on entered Email ID
4. Enter OTP and submit within 150 seconds (Resend OTP active after 30 seconds)
5. If OTP is correct:
 - a. Email is verified
 - b. Username and Password Creation Page opens

Administrators

Same as for Career Counsellor

Data Analyst

Same as for Career Counsellor and Administrator

5. Account Creation Methods

Career Explorer

Career Explorer can sign up using:

A. Email ID (as Username) + Password

1. Auto-populate the already verified Email ID, and set a 13-character password
2. Click **Create Account**
3. If Password is correctly filled:
 - a. Profile is created
 - b. Profile ID is generated
 - c. Dashboard opens

B. Username + Password

1. Auto-generate a Username and set a 13-character password
2. Click **Create Account**
3. If Password is correctly filled:
 - a. Profile is created
 - b. Profile ID is generated
 - c. Dashboard opens

Career Counsellors

Career Counsellor has only one option to sign up using:

A. Email ID (as Username) + Password

1. Verified Email ID is auto-populated. Set a 13-character password
2. Click **Create Account**
3. If Password is correctly filled:
 - a. Profile is created
 - b. Profile ID is generated
 - c. Dashboard opens

Administrators

Same as for Career Counsellor

Data Analyst

Same as for Career Counsellor and Administrator

6. OTP Rules

A. Successful Verification

- a. Correct OTP entered within 150 seconds
- b. Communication channel verified and Username and Password Creation Page opens

B. Incorrect OTP

- a. Error message displayed
- b. Unlimited retries allowed within the 150-second validity period

C. OTP Expired

- a. User prompted to resend OTP
- b. Resend button becomes active after 30 seconds.
- c. New OTP generation restarts the verification process.

D. OTP Not Received

- a. Resend OTP unavailable for first 30 seconds
- b. Available after 30 seconds
- c. Clicking on Resend OTP expires previous OTP

7. Inactivity and Session Management

A. Less than 1 Hour of Inactivity

- a. All entered data remains saved on the page even if profile creation process not complete

B. 1 Hour or More of Inactivity

- a. Session expires
- b. All entered information is lost
- c. No profile is created
- d. Details need to be entered again to create profile

C. Window Closed

- 1. All entered information is lost immediately
- 2. OTP if generated expires

3. No profile is created
4. Details need to be entered again to create profile

8. Navigation Options

A. Back Button

- a. There should be an option to go back to previous stages of the form if an update needs to be made
- b. If back button is pressed after Communication Channel verification, and that field or Email ID/Mobile Number field is modified, verification needs to be done again. If not modified, verification remains complete
- c. Data remains until session timeout (1 hour of inactivity)

9. Final Outcome

A new user account is successfully created only when:

- a. The required profile details are filled
- b. Data Consent is provided
- c. Communication channel(s) or Email ID is verified with OTP through Email ID and/or Mobile Number (only available for Career Explorers)
- d. Credentials (Username (Auto-generated/Email ID) and Password are successfully set
- e. The session has not timed out and the user has not abandoned the process.

Upon successful completion, the **new profile is created with a unique Profile ID, and the user is redirected to the dashboard.**

III. Existing User Login & Password Reset Flow Summary

Detailed Logic: [Psychometric Assessment and Guidance Platform - Logic 2026-27](#)

When an existing user attempts to access the platform, the system validates whether they are logging in through the correct pathway and provides login or password recovery options as required.

Redirect to Login Page - Existing User Attempts to Sign Up (Create New Account)

If an existing user opens the Sign-Up page and enters details using a registered:

- a. Mobile Number, or
- b. Email ID

The system:

- a. Displays an error stating that the profile already exists
- b. Redirects the user to the Login Page
- c. Prompts the user to use the **Forgot Password** option if they cannot remember their password

Login Flow

1. Select Profile Type

Users must first choose their profile type:

- a. Career Explorer
- b. Career Counsellor
- c. Administrator
- d. Data Analyst

2. User Authentication

Career Explorer Login

Users can log in using:

A. Registered Email ID + Password

OR

B. Assigned Username + Password

OR

C. Google SSO with Registered Email ID

If credentials are correct and authentication is successful:

- a. User logs in successfully
- b. Dashboard opens

If credentials are incorrect or authentication is unsuccessful:

- a. Error message displayed: "XYZ is not registered/is incorrect"
- b. Unlimited login attempts allowed

Career Counsellor Login

Users can log in using:

A. Registered Email ID + Password

OR

B. Google SSO with Registered Email ID

If credentials are correct and authentication is successful:

- a. User logs in successfully
- b. Dashboard opens

If credentials are incorrect or authentication is unsuccessful:

- a. Error message displayed: "XYZ is not registered/is incorrect"
- b. Unlimited login attempts allowed

Administrator Login

Same as for Career Counsellor

Data Analyst Login

Same as for Career Counsellor and Administrator

Forgot Password Flow

Users can select **Forgot Password** from the Login Page after selecting Profile Type (Career Explorer/Career Counsellor/Administrator/Data Analyst).

The system prompts the user to enter:

- a. Registered Mobile Number (Career Explorer only), or registered Email ID (Career Explorer/Career Counsellor/Administrator/Data Analyst)

1. Steps to Reset

Step 1: Request Password Reset

User enters a registered mobile number/Email ID and clicks **Change Password**.

The system:

- a. Sends a 4-digit OTP to the registered mobile number/Email ID

Step 2: OTP Verification

Successful OTP Verification

If:

- a. OTP is entered correctly
- b. Submit OTP is clicked within 150 seconds (Resend OTP active after 30 seconds)

Then:

- a. Password Reset page opens

Fields displayed:

- a. Set New Password
- b. Re-enter New Password

Step 3: Create New Password

Valid Password Entered

If:

- a. Both password fields match
- b. Password satisfies all password rules
- c. User clicks Change Password

Then:

- a. Password is updated
- b. Confirmation popup appears
- c. User is given link to redirect to Login Page
- d. User can log in now using the new password

Invalid Password Entered

If:

- a. Password does not meet required conditions.

Then:

- a. Error message displayed
- b. Password is not updated until corrected

2. OTP Rules

A. Successful Verification

- a. Correct OTP entered within 150 seconds
- b. Email ID/Mobile Number is verified and Password Reset Page opens

B. Incorrect OTP

- a. Error message displayed
- b. Unlimited retries allowed within the 150-second validity period.

C. OTP Expired

If OTP is not submitted within 150 seconds:

- a. Error message displayed.
- b. User is prompted to resend OTP.

D. OTP Not Received

If no OTP is received:

- a. Resend OTP disabled for first 30 seconds
- b. Resend OTP enabled after 30 seconds
- c. Clicking Resend OTP generates a new OTP and restarts verification.

3. Inactivity and Session Management

A. Less than 1 Hour of Inactivity

During OTP verification or password reset:

- a. All entered information remains on the page.

B. 1 Hour or More of Inactivity

- a. Session expires
- b. All entered information is lost
- c. OTP, if generated, expires
- d. Password is not updated

C. Window Closed

- a. All entered information is lost immediately
- b. OTP if generated expires
- c. Password reset process is abandoned
- d. Password remains unchanged, and details need to be entered again to reset password

4. Navigation Options

A. Back Button

- a. No Back button is provided here in the platform
- b. If on desktop/laptop/tab, back button in browser is clicked, this will lead to going back to login page, and will be treated same as closing window

5. Final Outcomes

A. Successful Login

A user successfully accesses the platform when:

- a. Correct credentials are provided, or
- b. Valid SSO authentication is completed

Result:

1. Dashboard opens

B. Successful Password Reset

A password is successfully reset when:

- a. User verifies identity through Email (Career Explorer/Career Counsellor/Administrator/Data Analyst) or Mobile (Only Career Explorer) OTP
- b. User enters a valid new password
- c. User submits the password change successfully

Result:

1. **Password is updated and user is shown link to redirect to the Login Page**

C. Failed Login or Password Reset

The process fails when:

- a. Credentials are incorrect
- b. OTP expires
- c. User abandons the process
- d. Session times out
- e. Browser window is closed
- f. Back button is pressed

Result:

1. **Password remains unchanged**
